

THE FINANCIAL CHALLENGES OF DISABILITY

National Disability Institute's analysis of data from the FIDM Investor Education Foundation's National Financial Capability Study provides compelling evidence pointing to the need for solutions that advance financial stability and capability for people with disabilities.

■ With Disability ■ No Disability

People with Disabilities: A Financial Snapshot

People with disabilities are almost 3 times more likely to have income less than \$22,000.

Financial Stress Among People with Disabilities

People with disabilities are almost 3 times more likely to have extreme difficulty paying bills.

They are also more likely to report that they could not come up with double the unexpected expenses.

Impact of Financial Stress on Long-term Economic Stability and Well-being

People with disabilities are almost 3 times as likely to use early non-bank lending.

People with disabilities are almost 3 times more likely to require medical treatment because of cost.

People with disabilities are more likely to...

National Disability Institute was founded to advocate and work to build a better economic future for people with disabilities. We encourage empowerment where people with disabilities have the same opportunities to advance financial stability and independence as people without disabilities.

This research was supported by a grant from the FIDM Investor Education Foundation.
